STATE AND TERRITORY

A Steamer Burned at Seattle,
With a Loss of \$10,000.

THE GRAND LODGE OF THE K. O. F.

An Alleged Murderer Comes Back to Stand Trial—
Two Men Drowned in British Columbia—The
State Board of Horticulture—Etc.

SHATTLE W. T. May 22.—The steamer Dispatch, of Port Townsend, was informed to the water's edge in port of Shattock and Gilmore's wharves about 10 o'clock this morning. The Dispatch had arrived from Bellingham with a crew load of rock at 9 last night, and took up at the wharf. At 2 Mate Eliot was awakened by the presence of smoke in the engine room. The discovered that the main admittance in flames. The fire was nipped, but had not enough to escape, come out to night clothes.

The boat then cast off from the wharf and alarm of fire was sounded. When the fire department arrived the vessel was wrapped in flames and could not be saved. Everything on board was burned including the personal effects of the crew.

The steamer belonged to Captain James Morris and was valued at about \$10,000. The insurance was learned to be \$4,500.

The insurance was \$4,500.

THE K. O. F. GRIND LODGE.

Spokane Falls Chosen as the Place of the
Next Meeting.

OLYMPIA, W. T., May 22.—The Pythian deacons, who have been quite general throughout the state, have now all been gathered at the state capitol, and are flying all over the city in honor of the grand gathering, which is to be held to compete for the prize offered by the Capital Lodge for the best dressed Pythian.

It is to be hoped that all of Colton's and Haines' kindly treated the citizens of Olympia to a most admirable display by his division.

The hall, the honor of the grand lodge was one of the largest ever given in this city and the excellent music by Haines' orchestra kept the hall.

But little more than the usual routine business was transacted this forenoon.

Spokane Falls was selected as the place of meeting of the next session of the grand lodge and the members of Capital Lodge and the citizens of Olympia for their general treatment of the delegates were unanimous.

The resolution adopted at the last session of the grand lodge prohibiting subordinate lodges from sending delegations to the state capitol was re-enacted at the present session.

The resolution however does not apply to those joining by card.

TACOMA NEWS ITEMS.

The Platonic "Swamped"—A Wife
Arrived at Olympia—A Wife

Arrrest of James Evans for the Murder of
Kusion at Newcastle.

SPATTLER, May 22.—The practice in this city is in a rapidly deteriorating condition. The last post master retained a number of the best employees of his republican predecessor, who were all sent to this work.

He has since been unable to find and brought to this city Ruston was one of the leaders of the Gilman mob that caused a riot among the miners in the state.

He was in the act of attempting to shoot Lowlynn Jones, one of the law and order men, several prominent New Dealers, who were in the city, when he was shot in the head.

MONTANA RAILROAD NEWS.

Work Begun on the Montana Branch of the

Butte, Mont., May 22.—Ground was broken today on the Northern Pacific line branch known as the Montana line, which will connect the main line with the branch to the south of the state.

Four miners started from Missoula in a boat today and are enroute to the mountains to get three of them managed to get on the overturned boat. One named Harry Lester could not swim in the boat. Robert Green left the boat to go to the beach. Lester, who was swimming, reached him. Green then went back to the boat. Seeing that the overturned boat would not be able to swim, he got into the water and swam to his boat and started to swim ashore. Owing to the icy cold water, he became exhausted and was drowned. The others were rescued by Indians.

THE BOARD OF HORTICULTURE.

Result of Its Investigation of Insect Pests in Oregon.

SAKES, May 22.—The state board of horticulture finished its session here this afternoon. The several reports have been discussed and the result of containing the insect pests has been announced. Some 100,000 Balsas the green aphid and codlin moth find the San Joaquin valley, the Columbia River valley, the Willamette River and the wooly spider in Western Oregon. The board will issue bulletin No. 2 in a few days, and invite all persons interested in insect to send copies to the secretary.

ALWAYS RAISING A ROW.

Frankie Howard the Cause of a Wild Sea

sation at Helens.

FRANKIE, May 22.—Frankie Howard a woman who was born in the state, has been drowned in the Northwest principally in Butte, Portland and Spokane Falls, is now in Helens. She will be recalled as having been connected with the shooting of Frankino Lira.

Last night at the St. Louis lot, a woman was shot in the head and killed. She was shot with a pistol. Her lover had on Sunday taken Frankie out to the Hot Springs for a drive. Sunday night she was alone in the car. She followed him in a carriage which she created quite a scene. Returning to her room, she told the hackman to wait for her. Having got into the carriage, she got out and the trees he killed for a policeman shouting that some one was ill. A woman in. This drew a crowd and the hackman was forced to stand at the side of the car. The policeman went in with his revolver and shot the man. Frankie attempted to repeat the shooting. He was hit in the head and died. He was not able to get out of his car.

He was shot in the head and the woman he killed for a policeman shouting that some one was ill. A woman in. This drew a crowd and the hackman was forced to stand at the side of the car. The policeman went in with his revolver and shot the man. Frankie attempted to repeat the shooting. He was hit in the head and died. He was not able to get out of his car.

SERIOUS ACCIDENT NEAR CENTRALIA.

CENTRALIA, W. T., May 22.—This morning at 10 a. m. a team of horses and a wagon driven by Mr. Hobson, foreman of a logging camp, was driven into the river. Hobson and the team were drowned. The horses were captured by a log and were held by the log. Hobson was pulled out of the water and was taken to the hospital. He was in a bad condition and died.

He was shot in the head and the woman he killed for a policeman shouting that some one was ill. A woman in. This drew a crowd and the hackman was forced to stand at the side of the car. The policeman went in with his revolver and shot the man. Frankie attempted to repeat the shooting. He was hit in the head and died. He was not able to get out of his car.

After much difficulty he was saved and the woman he killed for a policeman shouting that some one was ill. A woman in. This drew a crowd and the hackman was forced to stand at the side of the car. The policeman went in with his revolver and shot the man. Frankie attempted to repeat the shooting. He was hit in the head and died. He was not able to get out of his car.

MILTON, OREGON.

The Garden Spot of Umatilla County and a Promising Town.

Its Natural Advantages and Extraordinary Water Power—Prospects Brighter Than Ever Before.

Within four miles of the Washington territory line is situated the beautiful little city of Milton. It is the extreme northern town of Umatilla County, and is situated on the line of the O. R. & N. at a distance of thirty miles from Pendleton and eleven miles from Walla Walla. The citizens of the town are noted for their industry and enterprise, and pride themselves upon being one of the most progressive towns in the Northwest. Boys and girls caught up here are free from contamination with the evils that exist in most of the towns in the Northwest, and grow up to be men and women of noble character and high aspirations. So carefully are these interests guarded that not a single saloon or gambling house of any kind is allowed to exist within the town, and having provided a clause in the charter to that effect. Those of our citizens who cannot give up their old habits and the necessary evils of life, however, are compelled to go to Oregon. The militia board paid him back in his own coin, as they could not find any specific provision in the law to pay the account. Boys, however, are not to be blamed, as the law does not allow them to be held responsible for their acts.

REBELLIOUS BOYS.

Milton possesses a hundred advantages.

The abundant water supply, the rapid growth of shade trees, the quiet, peaceful atmosphere, the beauty of the land, the abundance of fruit and timber, combine to make this a place to be desired above all others. The soil in and around Milton is fully as productive as any other point on the Columbia, and the timber is abundant, and there is no lack of water. The water power is more than sufficient to run all the mills in the town, and, of course, the mills will occasionally manage to get liquor in some manner. While this is the case, to a small degree, it has not had any appreciable effect on the growth of Milton, for the past year a single drunken man, this spanski well, and his people may be pitied, but the town is not to be blamed. The town is a good one, and the people here are good, and the town itself is in a fine condition.

SCANDINAVIAN IMMIGRATION.

The Grant's Pass Courier says the good crops of 1888 will be caused by the splendid showing for 1889. All over Southern and Eastern Oregon the fact that when no special contract is made eight hours shall be given to the men is allowed to stand, and the employer is bound to give a clause in the charter to that effect. Those of our citizens who cannot give up their old habits and the necessary evils of life, however, are compelled to go to Oregon.

REBELLIOUS BOYS.

The Eastern countries from Waco to Union, have a prospect for magnificent harvests. Those countries that are not so fortunate as to have a good crop, however, will be compelled to go to Oregon.

SUPERB THEATRICAL TEMPLE,

That Judge P. A. Marquam Proposes to Erect in Portland.

Architect Wood in the City with the Plans—Description of the Contemplated Structure—Clearing the Ground.

The buildings are being removed from the site of the theater which Mr. P. A. Marquam proposes to erect opposite the big hotel, Colonial Hotel Wood, the architect of the theater, arrived here yesterday and submitted the plans for the structure to Mr. Marquam. If these plans are carried out, the new building will be one of the finest on the Pacific coast.

An Evening Telegraph reporter had an interview with Architect Wood yesterday and made an examination of the plans. That paper contained the following description of this proposed

THEATER OF THEATRICALS.

The building will have a frontage of 200 feet on Morrison street, and a depth of 20 feet to the theater, which will be detached from all buildings in the block by open courts, extending all around the play house. Thus there will be an open space of 400 feet in the rear of the building. The main entrance will be to six stories high, and seven in the three towers. The style of architecture is front of the theater, and the interior is to be of the best rock faced stone, and the rest in red pressed brick and red terra cotta.

The theater will be in the center of the structure, in which are to be located hydraulic elevators, stairways to the offices and entrances, and the various parts of the theater, which will be arranged through a large stone arch, richly ornamented and carved. The center section will be one story high, so that the main entrance will be at each end of the edifice will be another tower of equal height of the core in the center. The plan

SHOWS SIX STOREYS.

The first floor will have handsome French plate glass windows, and the second floor will be arranged to accommodate banks, insurance offices, etc., with fire proof vaults. The stores will be situated a few feet from the sidewalk, so that the business may be made available for business purposes.

The playground which will be christened the

MARQUAM OPERA HOUSE,

is to occupy a space seventy feet wide by 150 feet deep, supplied with every modern innovation for the comfort of the audience. The auditorium will be built to the capacity of the theater to the right, there will be found a commodious man's private office, with the men's, ladies' office, and ladies' entrance. The ladies' entrance will be located from the vestibule one will pass to a spacious foyer to the right, in which an iron staircase leads to the ladies' retiring and toilet rooms. To the left will be the foyer and entrance to the auditorium through a fire proof opening, and between these are to be ten other similar openings leading with galleries.

THE AUDITORIUM.

This part of the theater will be divided into a parquette and proscenium circles, each section having a seating capacity of 250 persons. The plan contemplates no steps either in the entrance or in the aisles as the necessities for them will be supplied by the galleries. The auditorium will be four thousand seats, and two boxes. The form of the auditorium is to be so arranged that practically there will be no choice of seats, every swing will command a full view of the stage.

CONTESTING THE TITLE.

What Mr. Sharpless Says About His Dispute With the Northern Pacific Coal Company.

Mr. F. P. Sharpless has returned from Washington, where he has been for the past two months on the part of the Northern Pacific and the Northern and Central Coal Company, to a considerable portion of the Rodon coal mining district.

Mr. Sharpless states that he has succeeded by the production of the evidence of the manner in which the lands in dispute were taken, in convincing the department of the coal territory that the lands in dispute were taken by the coal company, which brought them into the coal and will increase till the whole country is stocked with them.

It is doubtful if any large number of these birds can be procured, as bird catchers are not so plentiful in America as in Great Britain and Germany.

THE STAGE.

It is to be expected that from the auditorium will be built into the courts at the side, aggregating a width of twenty feet.

Mr. F. P. Sharpless will be located above the first floor, the front of which is to be brought to close to the stage that it will almost be the choicer part of the theater. The walls will be covered with the best of the vestibule one will pass to a spacious foyer to the right, in which an iron staircase leads to the ladies' retiring and toilet rooms. To the left will be the foyer and entrance to the auditorium through a fire proof opening, and between these are to be ten other similar openings leading with galleries.

Mr. F. P. Sharpless has returned from Washington, where he has been for the past two months on the part of the Northern Pacific and the Northern and Central Coal Company, to a considerable portion of the Rodon coal mining district.

Mr. Sharpless states that he has succeeded by the production of the evidence of the manner in which the lands in dispute were taken, in convincing the department of the coal territory that the lands in dispute were taken by the coal company, which brought them into the coal and will increase till the whole country is stocked with them.

It is doubtful if any large number of these birds can be procured, as bird catchers are not so plentiful in America as in Great Britain and Germany.

THE STAGE.

It is to be expected that from the auditorium will be built into the courts at the side, aggregating a width of twenty feet.
